

Fair Electoral Representation: Petition to the House of Commons

A petition to ensure Canadians have a fair electoral system

Whereas:

- Our winner-take-all voting system results in a House of Commons where the number of MPs a party's supporters elect does not reflect the number of voters who cast ballots for that party.
- Fair voting systems better reflect the will of voters, let them vote for the candidate or party they prefer, and give each community fair and accountable representation.

We, the undersigned residents of Canada, call upon the House of Commons to:

- a) immediately undertake public consultations across Canada to amend the Canada Elections Act to ensure voters:
 - can cast an equal and effective vote to be represented fairly in parliament, regardless of political belief or place of residence;
 - are governed by a fairly elected parliament where the share of seats held by each political party closely reflects the popular vote;
 - live under legitimate laws approved by a majority of elected parliamentarians, representing a majority of voters;
- b) introduce a suitable form of proportional representation after these public consultations.
